

Cisco Security Reference Architecture

Architecture overview and use cases

Jerry Lin, Principal Solutions Engineer, jelin@cisco.com
Global Security Architecture Team

May 2025

Cloud Platform

Security Cloud Control

CLOUD-BASED

Identity Intelligence

MULTICLOUD

UNIFIED MANAGEMENT & Risk Assessment

AI / ML DRIVEN

OPEN & EXTENSIBLE

TALOS THREAT INTELLIGENCE

Actionable threat intelligence

Collective responses

Comprehensive visibility

Signal identification

Threat research & analysis

SECURITY OPERATIONS CENTER

Cisco Vulnerability Management | Secure Analytics
XDR | Secure Client | Splunk | Security Cloud Control
Talos Incident Response

SERVICES

Custom threat research on demand

Implement and manage

Incident response retainer

Managed detection & response

Strategy & assessment

CAPABILITIES

Network detection & response

Asset discovery & insights

User Behavior

Endpoint detection & response

Open API platform & 3rd party native integrations

Risk-based vulnerability management

Identity Threat Detection & Response

SOAR

SIEM

Attack Analysis, incident response & threat hunting

ZERO TRUST

SASE

User / Device Security

Cisco Secure Client (AnyConnect) | Umbrella | Secure Endpoint | Meraki Systems Manager | Duo | Secure E-mail | Email Threat Defense | ThousandEyes

Cloud managed | VPN | Telemetry Visibility | Endpoint detection & response | DNS-layer security | Secure web | Posture | Anti-virus Anti-malware | Query | Host FW | Mobile device management | ZTNA | Risk-based MFA | Password-less | User trust | Identity Intelligence | Email, Phishing, SPAM, BEC,DLP, content filtering | Digital experience monitoring

Cloud Edge Network

SASE/Security Service Edge

Secure Access | Umbrella | Secure Connect

Enterprise browser | AI Access | Cloud access Security broker | RAaaS | Cloud malware detection | Remote browser isolation | Data loss prevention | Secure web gateway | DNS-layer security | TLS decryption | FWaaS | Zero Trust Network Access | Identity/Posture | Tenant restrictions | Group tagging

On-Premises Network

SASE/SDWAN

Meraki | Secure Firewall | ThousandEyes | Catalyst

Analytics | Group tagging | Application performance optimization | IPsec VPN | Cloud based orchestration | Integrated security | Cloud OnRamp | Middle mile optimization | Digital experience monitoring | Segmentation | Visibility

In the Office/Managed Location

Catalyst Center | ISE | Meraki | Secure Firewall | Secure Network Analytics | Secure Web Appliance

Application network gateway | Group tagging | Configuration orchestration | Identity/pxGrid Cloud | Content filtering | Network access control | Encrypted visibility | Network security analytics | Zero Trust Network Access | NGFW

Industrial Threat Defense

DNAC | SEA | CyberVision | Industrial Networking | ISE | Secure Firewall | Secure Network Analytics

Anomaly detection | Ruggedized | Compliance | Segmentation | Group tagging | Threat mitigation | Identity pxGrid | Visibility | Zero Trust Network Access

Workload, Application, and Data Security

ACI | Attack Surface Management | Radware | Secure Application | Secure Endpoint | Secure Firewall | Multicloud Defense | Secure Workload | Hypershield | AI Defense

Identity pxGrid | Macro segmentation | Flow analytics | Threat mitigation | Firewall NGIPS | Defense gateway | AI Defense | Deployment automation | Micro segmentation | App discovery & observability | Container security | Run-time protection | DDoS WAF/Bot
